

# January Staff Spotlight

Mr. Pyle grew up in Boswell, Pennsylvania, where he attended North Star High School. In high school, Mr. Pyle played basketball, baseball, as well as two years of football. He went on to major in chemistry at Slippery Rock University, located approximately fifty miles to the north of Pittsburgh. He later finished his master's degree in education. Mr. Pyle's first job was at George Junior High School, a juvenile delinquent center located in Grove City, Pennsylvania. The environment there, he has noted, is substantially different from that of Blanchester. Later, Mr. Pyle met his wife and moved to the Cincinnati area, where she is from. Here, Mr. Pyle took a job at Blanchester High School teaching chemistry and coaching girls' basketball and baseball. Today, Mr. Pyle says his favorite part of his job at Blanchester High School is the students he works with each day. Mr. Pyle loves both teaching and coaching students at Blanchester!
